HAY-4WFUSEPCB & HAY-9WFUSEPCB

These units are designed for any security applications that a distribution fuse board is needed, including Access & CCTV applications.

These units are built to provide the best of both worlds, providing PTC carbon fuses but also glass fuses also, giving the flexibility for every eventuality needed for a multiple output fuse board.

The default is 1.1A PTC fuse, although within just a couple of seconds you can switch to 1.0A glass fuse through the jumpers in front of the fuses.

Self-adhesive feet are supplied for quick and easy mounting.

They provide 4 or 9 fused outputs.

Main Features

- ✧ 4 or 9 fused outputs
- ✧ Default is 1.1A PTC fuse
- ✧ Or 1.0A glass fuse can be optioned through the jumpers
- ✧ LED indicator for each fused output
- ✧ Supply input ON/OFF switch
- ✧ Quick and easy mounting
- ✧ Size: 115x71mm
